THE FIRM

The global market, characterized by a strong competition and increasingly advanced technologies, nowadays requires a higher protection of our business identity and intellectual innovation from copying and forgery.

Our company, alongside with a team of professionals and expert consultants, starts by listening to the Client, analyzing his goals, the market, the competitors, finding the best solutions to satisfy his requirements.

The areas we work on are multiple and varied: wine and food, chemical, engineering, pharmaceutical, mechanical, computer science, biotechnology, fashion and design, etc. Our experts operate before the Italian Patent and Trademark Office, European Union Intellectual Property Office, Intellectual Property Office, European Patent Office and the World Intellectual Property Organization. Moreover, our partners, who operate in every foreign Country, support our activities that require local residence.
